

Wigluv – External Facade & Penetration Sealing Tape

Wigluv is Europe's leading external façade sealing tape and the optimum solution for permanently windtight sealing of breathable membranes and facade membranes, for overlaps, penetrations and bonding the membrane to the concrete slab edge on the outside.

The white, single-sided high-performance adhesive tape comes in varying widths to suit all applications and even in a pre-folded version to make sealing from wall membrane to window/door extrusions easy and fast for a perfect seal every time.

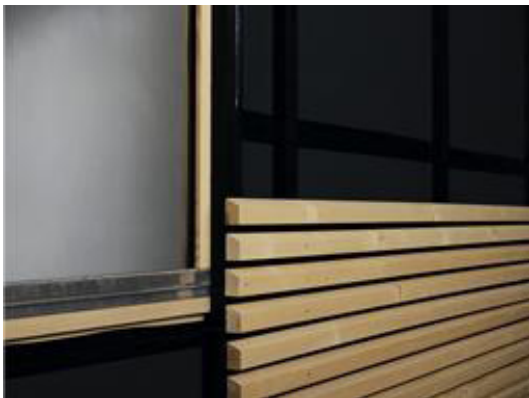

The image shows 150 sealing the membrane Majvest to the slab edge.

Available Sizes:

60mm x 40m

100 or 50mm x 25m

20/40mm x 25m (Pre-folded)

Wigluv Black, is perfect for windtight bonding of facade membranes for partly open facades. Bonds on overlaps, penetrations and window joints in the exterior are no longer visible thanks to Wigluv black. It is highly UV resistant and perfect for black background façade looks.

Available Size:

60mm x 40m

SIGA tapes are Airtight, Weathertight and Diffusible. Uniquely, they are also VOC free.

No off-gassing means no deterioration of product capability over time and better internal air quality, which is so important for Passive House and High Performance Builds.

Wigluv can be used with other brand membranes but you should consider using the premium performance of SIGA membranes for project integrity.

Driving rain resistance in combination with Majcoat has been proven by the TU Berlin.

Your advantages

- ✓ high adhesive strength at high and low temperatures (-40°C to +100°C)
 - ✓ reliable, long-term building value
 - ✓ diffusible sd < 2m
 - ✓ prevents condensation build-up
 - ✓ resistant to driving rain and impermeable to water
 - ✓ permanent protection for roof and facade
-

Suitable substrates

- Wood
- Hard wood-based panel materials
- Gypsum fibreboards
- Cement fibreboards
- Metals
- Hard plastics

It's as easy as 123! You will be a SIGA expert in no time at all!
