

Corvum – Tape for sealing right angle joins

The single-sided high-performance pre-folded tape Corvum is the perfect solution for easy, quick and permanently airtight sealing troublesome right angle joins. The pre-fold is unique to SIGA.

Use Corvum pre-folded 12/48 for sealing door and window frames to the internal membrane and in reveal frame corners. In addition, the tape is invisible behind cladding because it is precisely pre-folded. This makes application quick and easy.

Use Corvum pre-folded 30/30 for permanent airtight sealing of purlins, joists, corners and skylights on the inside. Corvum can be easily, quickly and reliably applied.

Image shows how the pre-folded 12/48 sits flat against the reveal frame/wall, allowing for the flush installation to the reveal of the internal cladding such as plasterboard.

Note in Australia, the membrane will most likely sit against the stud wall (timber or metal) and Corvum will seal the membrane to the reveal edge.

The tape is therefore not damaged by plasterer trades potentially wanting to force or even cut into the edges where other non pre-folded brand tapes used might not be sitting flat.

Corvum pre-folded 30/30 shown sealing the joist to the membrane. This makes simple work of a difficult potentially high leakage area.

SIGA tapes are Airtight, Weathertight and Diffusible. Uniquely, they are also VOC free.

No off-gassing means no deterioration of product capability over time and better internal air quality, which is so important for Passive House and High Performance Builds.

Available Sizes: Pre-folded 12/48 & 30/30mm x 40M.

Your advantages

- ✓ pre-folded 12/48 mm, invisible behind cladding
- ✓ 1 backing strip already removed, simple and quick bonding
- ✓ 1 backing strip protruding, easy to remove

Suitable substrates

- Wood
 - Hard wood-based panel materials
 - Gypsum fibreboards
 - Gypsum Plasterboards
 - Metals
 - Hard plastics
-

Suitable membranes

- Vapour control layers / [diffusion](#) retarder sheeting
Smooth to rough PE/PA/PO/PP sheeting, Kraft papers, Aluminium membranes

It's as easy as 123! You will be a SIGA expert in no time at all!
